Home is our personal retreat, the private space where we share special time with family and friends.

It is a reflection of our lifestyle, our attitudes and the things that mean the most to us. As our lives and tastes change, our home evolves with us – always in sync with our current needs.

USM Modular Furniture is designed to accompany us through different phases of life. It adjusts to new demands, ready to take up different functions in our home.

USM Haller is the epitome of timeless design: almost 60 years ago, Fritz Haller and Paul Schärer created a completely new aesthetic – a furniture system inspired by architecture.

creative

Two visionaries, one idea

After completing his engineer studies, Paul Schärer Jr. joined the family business in 1961. The engineer had big ideas: he wanted to build a modern, industrial factory. He partnered with Fritz Haller, a respected architect of Solothurn school.

Born from architecture

Haller developed a flexible construction system with various steel modules. This inspired Paul Schärer Jr., who had a bigger vision: interior design that complements architecture. Together, they developed a modular piece of furniture that was predestined for further development.

Furniture with a system

The centrepiece of the system is a chrome-plated ball with six threaded holes. It connects the chrome-plated steel tubes in any combination. Finally, add sheet steel panels, which are powder-coated in various colours. Everything was intended for the company's own offices.

From prototype to USM Haller

When photos of the forward-thinking furniture system with its innovative aesthetics appeared in architecture journals, it was hailed an international sensation. A commission came from the Rothschild bank in Paris consisting of 600 workstations – the company's first major project. Series production began in 1969.

Less is more

With endless possibilities, the USM Haller system can be configured at will and adjusted to changing requirements, in all directions. Its strikingly fascinating minimalism is eye-catching and inspiring for everyone who values design, quality and functionality.

Modern art

An icon of modern design, USM Haller has been on display at the MoMA in New York since 2001 and recognised as a 'work of applied art' since 1988. USM Haller continues to evolve, while remaining true to itself by retaining original characteristics and invites users to challenge their own creativity.

From Münsingen out into the world

Alexander Schärer has headed up this fourth-generation family business since 2000. Production is still carried out at the headquarters in Münsingen. USM employs 450 people and currently has subsidiaries in the USA, France, Germany, UK, Japan and China. USM products are distributed by dealers in over 40 countries. Sustainability has always been a top priority. In 2008, USM was awarded Greenguard environmental certification and received the Cradle-to-Cradle® environmental label in 2018. The vision is to become a fully circular company by 2030. → S. 68
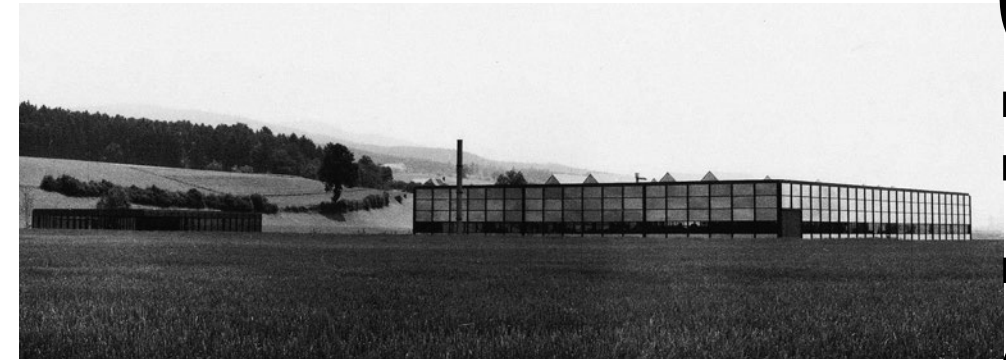

1 New factory (1963) and office pavilion (1965) in Münsingen, designed by Fritz Haller.
2 In 1965, USM Haller was developed to furnish personal use workspaces within visionary architecture.
3 Schärer family home (1969), designed by Fritz Haller, furnished with USM Haller.
4 The key to space. Balls, tubes, panels: what began 60 years ago continues to inspire today.

the modular icon by
Fritz Haller & Paul Schärer,
Switzerland
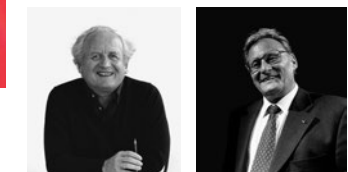

It is simply about living your ideas, your style.

Make your home personal. Clear lines, versatile modularity: USM Haller lets you decide. Unobtrusive but essential, it adapts to your lifestyle, your changing needs, your personal taste.

USM and sustainability

becoming a fully circular business

We want to extend circularity principles beyond our products. That means adopting this philosophy through-out our company – from our product development to our manufacturing, and new business models, from our communications to our supply chain, operations and the expertise of our people.
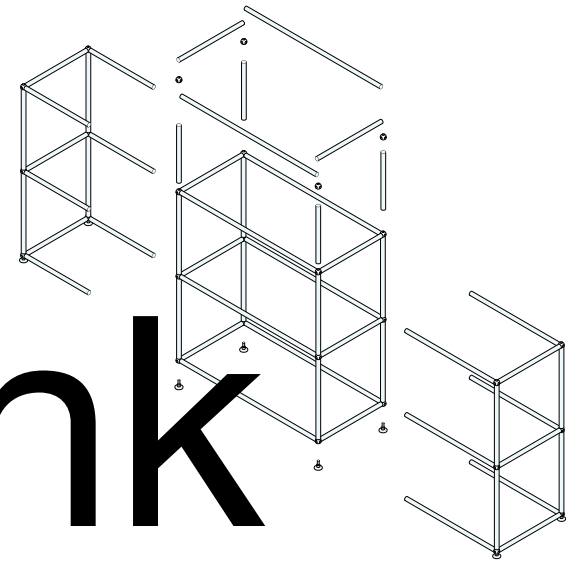

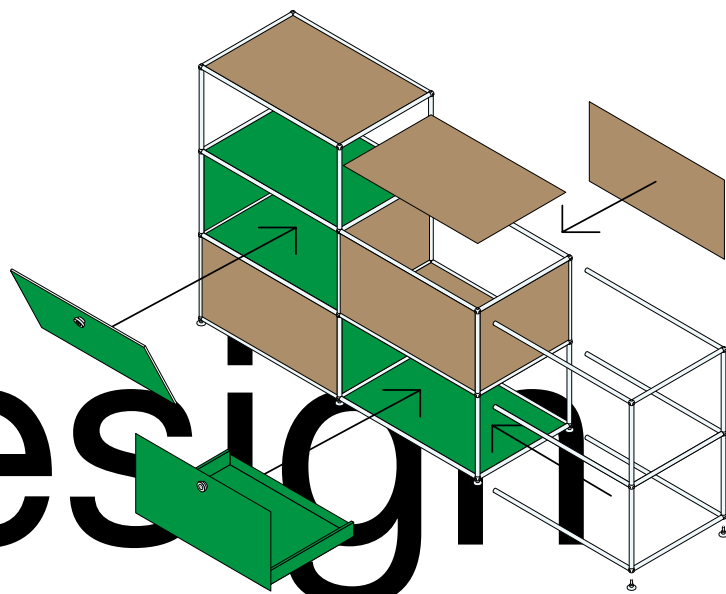

re think

Rethink, redesign, revalue sums up the sustainable benefit of our products.

What and how much do you really need? What purposes should a piece of furniture serve? Experienced consultants and virtual planning tools enable us to support you to create a bespoke and conscious purchase. So that you get exactly what you really need, tailored to your current requirements. But don't worry, once furniture has been designed, it can always be rethought and adapted to new circumstances.
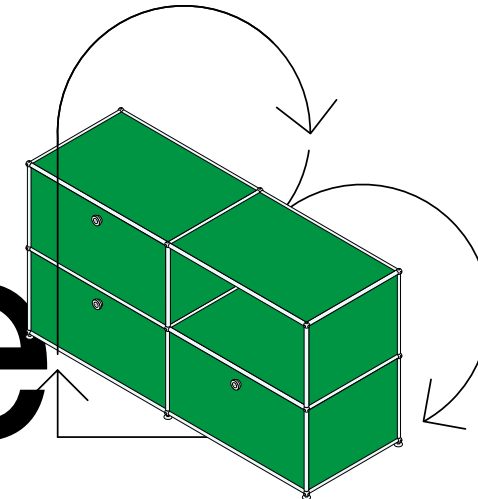

Each piece is unique, planned and assembled especially for you. Our furniture is designed to be forever reconfigured. Thanks to the high-quality finish and clever design, all compo-nents can be change and extended at any time without any problems. This leads to limitless creative freedom, more individuality in design and almost infinite cycles of use.

re design

re value

Thanks to the high quality, colours that never fade and a 100% modular system, decades-old USM furniture can be seamlessly combined and upgraded with new components. We believe a product that adapts to your style, your life, your changing needs is relevant and loved.

USM furniture is a valuable companion for life, across generations.

Our product lines USM Haller and USM Kitos M, accounting for more than 92% of our revenue, carry the Cradle-to-Cradle® certification. It is the leading multi-attribute standard used globally across indus-tries for designing and making products that enable a healthy, fair and sustain-able future according to the world's most advanced science-based measures.

All our four main product lines carry the UL Green-guard Certification for low chemical emission. Having undergone rigorous scien-tific testing to meet stringent emissions requirements, this certification approves that our products contribute to a healthier indoor air quality.
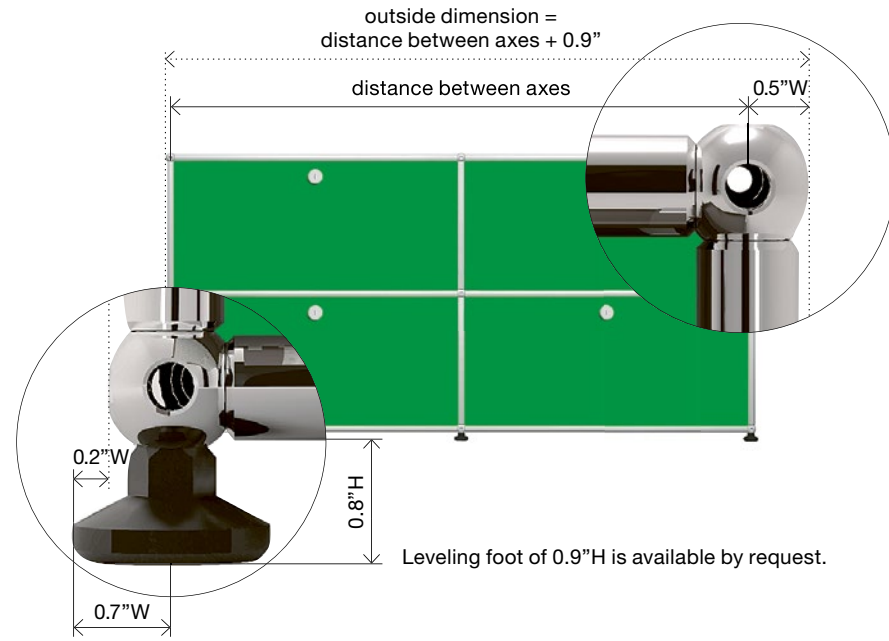

With the Science Based Targets initiative (SBTi), carried by several renowned organisations including the United Nations Global Compact and the the Word Wide Fund of Nature (WWF), we have committed to set near-time company-wide emission reductions in line with the latest climate science.

USM Haller E

A modular structure of your design, either completely or partially equipped with e-Balls and e-Tubes, is connected to a source of electricity. The structure itself conducts the low voltage electricity to the desired location using the e-Balls, e-Connectors and e-Tubes to form a circuit. USB chargers or light sources can be snapped into place in pre-cut recesses. The power supply is drawn from any point near the ground. The power supply cable is attached to an e-Ball, and the power adapter is subsequently tucked underneath the furniture until only the operating switch remains visible. From this point the power supply requires no further cables but rather is integrated into the structure of the furniture.

Application options

1 **Glass panel**
Glass elements can be illuminated throughout.

2 **Without metal paneling**
Compartments without metal paneling can be completely illuminated.

3 **With metal paneling**
Compartments with metal paneling can be illuminated from the front.

4 **Compartment with an extension shelf**
The entire compartment with an extension shelf can be illuminated.

5 **Drop-down and extension door**
Via the "Light When Compartment Is Open" function, the light automatically turns on when the door is opened.

6 **Angled shelf**
The presentation space is illuminated from the front.

7 **Floor lighting**
With floor lighting, the light shines at a 25-degree angle under the furniture.

8 **Ambient lighting**
The light is directed vertically towards the back, illuminating the surroundings with a warm glow.

9 **e-USB charger**
It can be integrated in the same places as the e-Lights.

e-Elements

1 **e-Lights**
Dimmable, available in
– Warm white 2700 Kelvin
– Cold white 5700 Kelvin
Both with or without the "light at compartment opening" function.

2 **e-USB charger**
Provides a voltage of 5 volts to the connected device. (Capacity: 6.5 W)

3 **e-Dummy**
Sleek, black e-Dummy element, closes recesses that are unutilised. Can be changed for additional e-Lights or e-USB charger later.

4 **e-Tube (power outlet)**
Tubes with recesses for e-Lights, e-USB chargers or e-Dummy elements that can be easily snapped into place or replaced.

14"D, 1 recess
20"D, 2 recesses
30"D, 3 recesses

5 **e-Tube (conductive)**
The conductive e-Tube serves to conduct the electricity if no inserts are desired in this location. It is available in lengths of 30", 20", 16", 14", 10" and 7".

6 **e-Ball, e-Connector**
To enable the flow of electricity, the ball and connector were refined. The exterior dimensions remain unchanged. The distinguishing feature of the ball is the black insulation ring.

7 **e-Power supply**
Includes dimmer at the operating switch. Transforms the power supply voltage to 24 volts. (Capacity: 60 W)

* Manual height adjustment with a removable handle.

** Note: These sizes are not yet included in the standard range.

Accessories for all USM Haller table / desk

1 Grommet hatch for network access
Flush hinged cover set into the tabletop for easy network access, can be positioned right or left.

2 Cable management
For the Advanced table type, a cable tray integrated under the tabletop offers storage room and attachment options for all cables and technical components.
For the traditional USM Haller Table and the USM Haller Plus, a cable basket can be attached.

3 CPU holder
Computers in various sizes can be mounted using a simple holding device under the table.

4 Link chain
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

5 Flat screen pivot arm
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Available for USM Haller classic desk: The pivot arm can be mounted onto the table edges with the universal holder or into the table leg using an assembly tube. Available for USM Haller Plus and Advanced: The bracket can be connected directly to one of the adaptation points.

Cable duct
The classic USM Haller table can be updated with a black aluminum cable duct section, with lids that fold open on both sides, to integrate cables.
This enables the table depths to be expanded to the EU standard of more than 32". Available for the following table sizes: of 79"W, 69"W, 59"W, 49"W, 39"W, 35"W, 30"W.

Options
5a Mounting at different heights
is possible for screens weighing up to 26 pounds.

5b Continuous height adjustment
for screens weighing up to 26 pounds.

6 Front and side panel
A black mesh fabric can be attached to the back or the side under the table frame. Available for the following table sizes: 79"W, 69"W, 59"W, 49"W, 39"W, 30"W and depths: 39"D, 30"D.

7 Material tray
Provides room for writing instruments and can be discreetly stowed under the tabletop.

8 USM Privacy Panels
Fitted on the long side of the table to provide individualisation and privacy. 14"H or 28"H. Available for the following table sizes: 120"W, 98"W, 89"W, 79"W, 69"W, 59"W, 49"W* *only for Haller tables without adaptation points

Accessories for USM Haller Plus / Advanced desk

9 Flat screen support bar
The bracket is inserted into the adaptation points. Up to two screens (max. 2 × 26 pounds) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

Options
9a Flat screen support bar fix
9b Flat screen support bar adjustable
Move forwards or backwards two notches at a time to adjust the viewing distance.

10 USB adapter
The adapter can be used for USB A 3.0 and C connections. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.

11 Lamp peg
An optional lamp peg for easy attachment of traditional table lamps. Electrification is possible through the adaptation point.
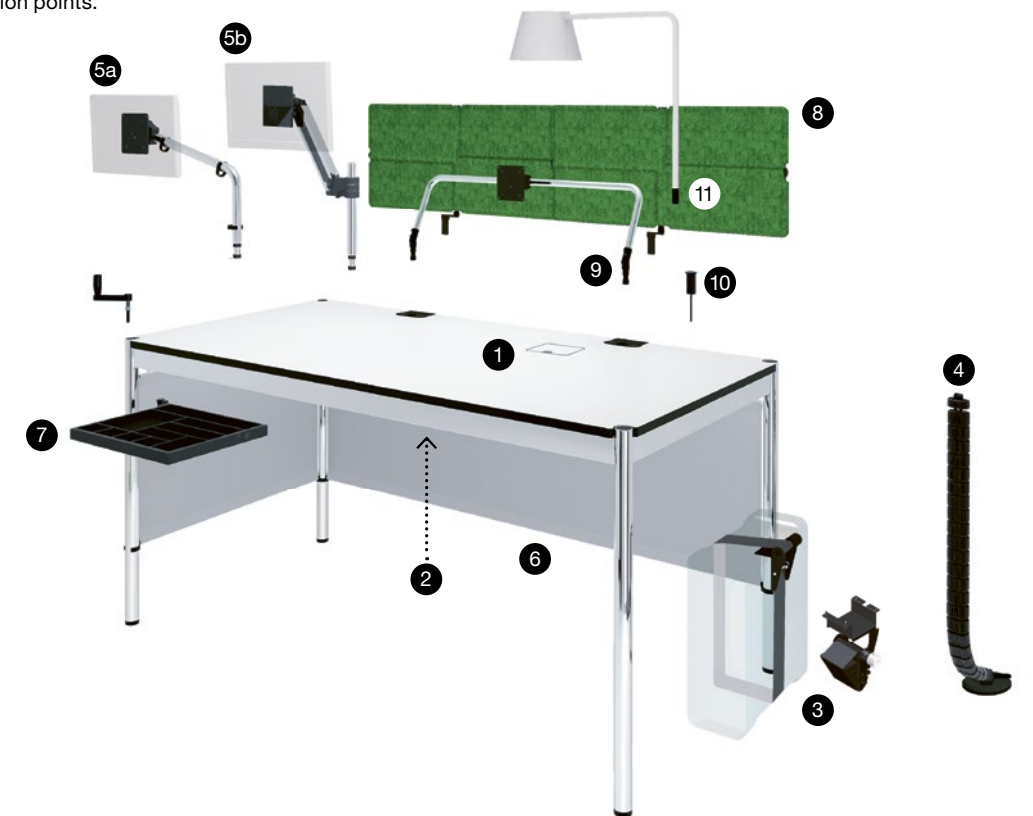

USM Kitos M and E table / desk

Each desk of the USM Kitos M and E family offers integrated smart solutions for electrification, excluding free-standing.

Why USM Kitos M?
The "M" in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 sec. with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?
Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

E1
29"H
With or without middle traverse

E2 with 1 motor
28"–47"H
Adjustment time approx. 30 sec.
With middle traverse

E3 with 2 motors
26"–51"H
Adjustment time approx. 20 sec.
With middle traverse

Basic desk
Integrated cable tray underneath the tabletop

Sliding tabletop
Integrated cable tray accessible from above by sliding back the tabletop

Adaptation points for accessories

Extra size
Integrated cable tray underneath the tabletop and accessible from all sides

Side table

USM Kitos M

Square
30"W/30"D or 35"W/35"D
Round
Ø: 35" or 43"

The table can also be provided with an asymmetrical version of the middle traverse, for extra legroom. (This is not possible with the USM Kitos E / M Meeting.)

* Available with or without middle traverse.

**Available in a GS-Mark tested version with 0.12" table edge radius and the asymmetrical middle traverse.

Accessories
for all USM Kitos M and E table / desk

1 **Grommet hatch for network access**
Flush hinged cover set into the tabletop for easy network access, can be positioned at two different locations.

2 **CPU holder**
Computers in various sizes can either be mounted using a simple holding device under the height-adjustable tabletop or attached to the table column.

3 **Link chain**
Holds and directs cables to the power source. Flexible and adjustable to various lengths.

4 **USM Privacy Panels**
Fitted on the long side of the table to provide individualisation and privacy.
14"H or 28"H.
Available for the following table sizes: 99"W, 89"W, 70"W, 69"W, 63"W.

Accessories
for all USM Kitos M and E table / desk, except USM Kitos M Meeting / E Meeting

5 **Flat screen pivot arm**
Screens are screwed to the height adjustable pivot arm using a mounting plate (VESA standard). Available for USM Kitos E/M desk: The pivot arm can be mounted onto the table edges with the universal holder. Available for USM Kitos M and E Plus: The bracket can be connected directly to one of the adaptation points.

Options
5a **Mounting at different heights**
is possible for screens weighing up to 26 pounds.

5b **Continuous height adjustment**
for screens weighing up to 26 pounds.

6 **Front panel**
A black mesh fabric attaches to the front under the tabletop. Available for the following table sizes: 70"W, 69"W, 63"W.

7 **Material tray**
Provides room for writing instruments and can be discreetly stowed under the tabletop.

Accessories
for USM Kitos M Plus / E Plus

8 **Flat screen support bar**
The bracket is inserted into the adaptation points. Up to two screens (max. 2 × 26 pounds) can be attached using a mounting plate (VESA standard). Screens can be mounted at different heights; screens can be adjusted with ball joints.

Options
8a **Flat screen support bar fix**

8b **Flat screen support bar adjustable**
Move forwards or backwards 2 notches at a time to adjust the viewing distance.

9 **USB adapter**
The adapter can be used for USB A 3.0 and C connections. It can easily be inserted into the adaptation point. Usable as power supply or for data transfer.

10 **Lamp peg**
An optional lamp peg for easy attachment of traditional table lamps. Electrification is possible through the adaptation point.

6
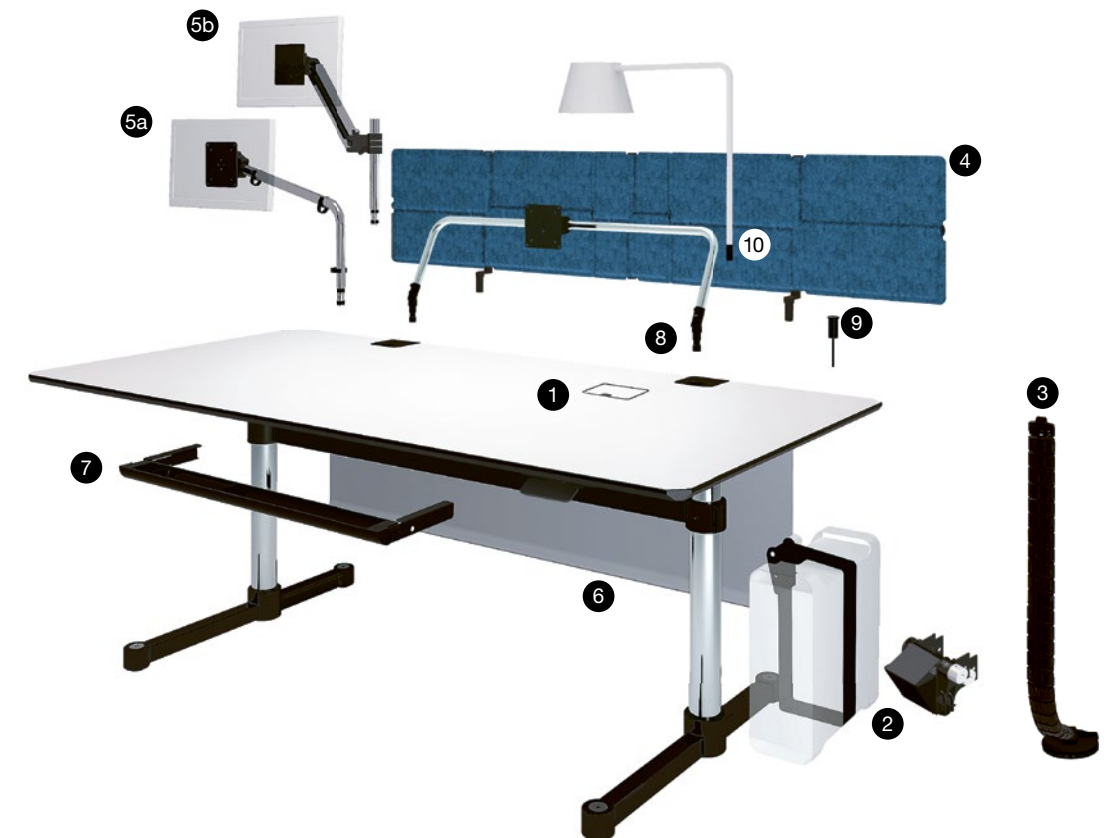

1   **Metal, mag-
    netic bookend**
    Available in pure
    white and graphite
    black.

2   **Pivoting pen
    holder**
    Provides room
    for writing instru-
    ments and can be
    discreetly stowed
    under the tabletop.

3   **USM Inos
    internal
    organization**
    Plastic inserts in
    metal trays are
    ideal for storing
    small bits and
    pieces, whether
    in the home office
    or in the house.

4   **USM Inos C4
    box set**
    Inos box set fits
    into any piece
    of USM furniture.
    Available in all
    14 USM colors.
